

Letter of Support for Conference Attendance

To Whom It May Concern,

This letter serves to confirm that the 46th International Conference on Coordination Chemistry (46th ICC, iccc2026.com) will be held in Odense, Denmark, from June 28th to July 3rd, 2026.

Participant Name: <<FULL_NAME>>
Nationality: <<NATIONALITY>>
Home Institution: <<INSTITUTION_NAME>>

We understand that <<FULL_NAME>> is seeking institutional or external support to attend ICC2026. The conference brings together leading international researchers, postdoctoral fellows, and students in the field of coordination chemistry and related disciplines, providing a significant opportunity for professional development, networking, and knowledge exchange.

For Danish PhD and master's students, ICC2026 offers valuable exposure to an international research environment, opportunities for scientific dialogue with world-leading researchers, and an important platform for academic and professional growth.

The conference is organized under the leadership of **Professor Christine J. McKenzie (University of Southern Denmark)** and the **local and binational organizing committees**, and features **eight scientific themes** across numerous symposia, sessions, and workshops. A copy of the preliminary programme and list of Conference themes are attached for your reference.

This letter is provided in support of the applicant's efforts to secure funding for attendance. It does not constitute a formal invitation or any financial commitment from the conference organizers.

Sincerely,

Zac Adams | Scientific Events Manager

On behalf of the Organising Committee for the 46th International Conference on Coordination Chemistry

Faculty of Natural Sciences
University of Southern Denmark
DK-5230 Odense, Denmark

| Sunday | |
|------------------|---|
| 28th June | |
| 10:00-14:00 | Bursary and student helper breakfast, introductions, presentations and training |
| 14:00-14:30 | |
| 14:30-14:45 | |
| 14:45-15:00 | REGISTRATION |
| 15:00-15:20 | <i>Odeon</i> |

| 12:30-14:00 | LUNCH |
| 12:30-18:00 | Rooms available for network/group meetings |

Scientific Themes

- Coordination chemistry in biology and medical applications
- Catalysis and bond activation
- 4f/5f (6s/6p) elements
- Main group elements
- Electronic and molecular structure – methods and modelling
- Supramolecular chemistry and 3D materials
- Coordination compounds for energy and sustainability applications
- New directions in coordination chemistry
